Re: Opening Up

What will “opening up” look like for our community and when might this happen? This seems to be a question on the minds of many. We wanted to provide an update on this topic so you stay informed. We know in a community setting we have some of you that are anxious to be more involved in the community at large and others who want us to be very cautious.

We will start by following state and federal government guidelines. Once state and federal guidelines allow us to eliminate certain restrictions we will look at this within our campuses. As a leadership team, we are trying to look forward to what process or physical changes we may want/need to make to help ensure the safety of our residents. We don't know for sure but right now we do expect the elimination of the restrictions will likely come in reverse order of how the restrictions were implemented.

We appreciate the input we have already received and we expect to receive and we will update you as we have specifics.

Sincerely,

Reed VanderSlik
